IRAQI STATE RAILWAYS

# Introducing the *VISCOUNT*

This is to introduce Iraqi Airways' latest addition to its fleet—the Vickers Viscount, the world's first propeller turbine airliner. It will go into service on our routes throughout the Middle East. We also plan to introduce something quite new—a weekly Viscount service to Europe terminating at London, and another weekly service to Pakistan and India, through Karachi, terminating at Bombay.

## Swift and Sure Service

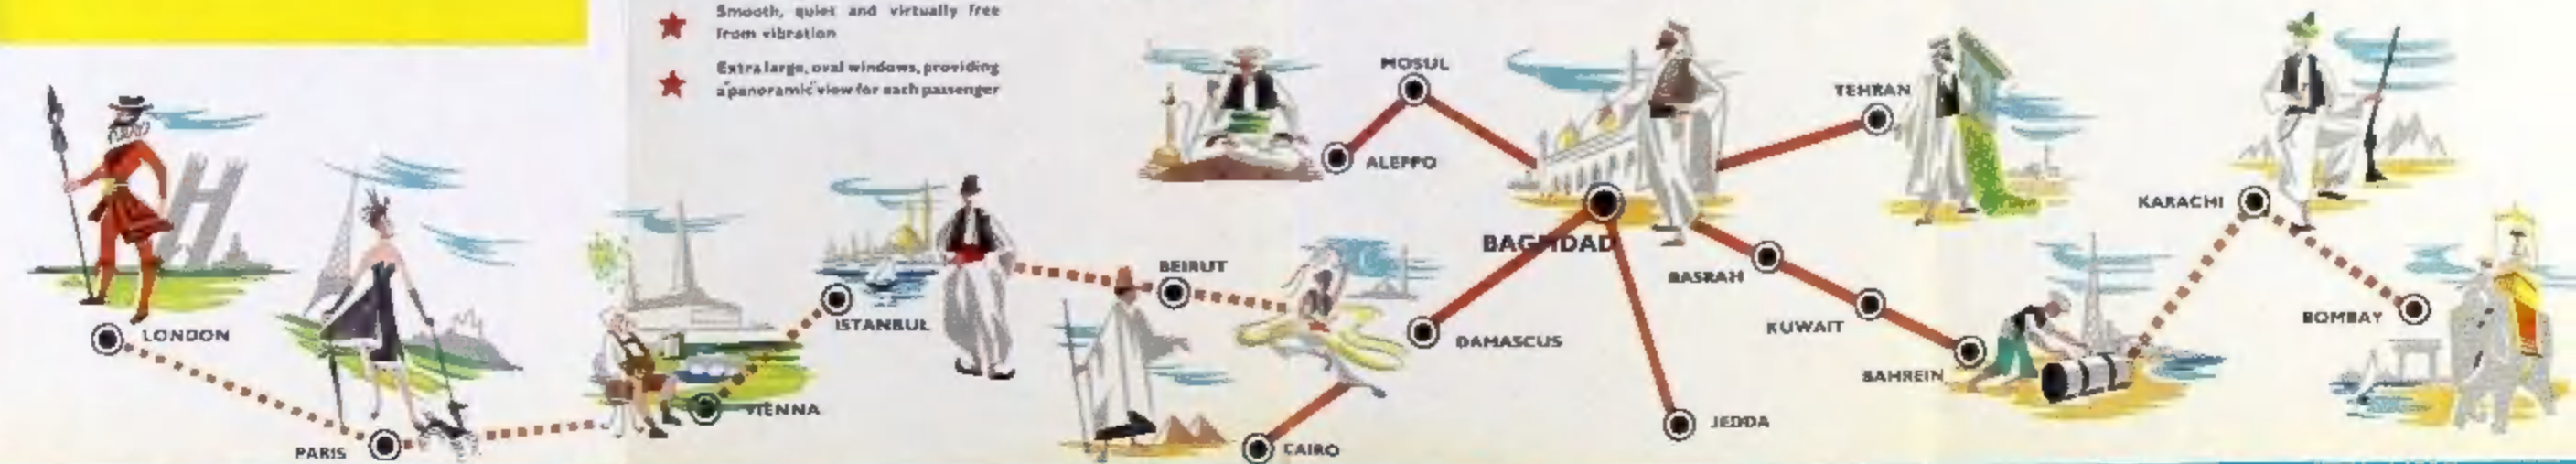

### EXCELLENT CUISINE

Oriental and Continental Dishes

- ★ Cruises at 320 miles per hour
- ★ Fully pressurized, heated and air conditioned cabin
- ★ Flies above all weather, at heights up to 25,000 feet
